Computational Structures in Data Science

(Serious-ish) Ed Questions

Question

when were you first exposed to cs? how did you know cs is what you wanted to pursue?

Question

What pieces of advice/tips do you have for finding hands-on experiences beyond C88C to apply what we've learned into the industry and into practice, especially at and beyond Berkeley?

Question

As a freshman majoring in Data Science, what are some of the next steps I can take (beyond just taking the required classes for the major) to keep exploring various resources here at Berkeley? Any good places you recommend starting?

Question

If we want to pursue further study in the field of deep learning in the future, to what extent do you think math ability should be cultivated? I am taking eecs127 this semester, and want to know what other math knowledge besides the most basic math class can help us more.

Question

when can I start looking for internship? after which course? I feel like cs88 wouldn't prepare me for the job yet

Question

Do you have any information or advice regarding the process of switching into a high demand major like computer science or data science?

Question

Can the last question of the final exam be an extra credit question?

(or draw some patterns to earn points... :D)

does the ant in the CS88 logo have a name? if not, shall we name the creature now? :D 🐜 🐜

Question

do you have any cool ideas for personal projects students could pursue?? not hard-cs based but around the datasci cogsci realm. I'm getting the urge to channel my passions and perspectives so far into something for my resume, but it's so hard to know where to start!

Question

I didn't do too well on the midterms because I didn't finish it. :(What are some tips do you have for improving and doing better on the final?

Didn't do well on the first question of the midterm, how do we tackle a ton of imbedded lists like that?

Fun Ed Questions

Berkeley
UNIVERSITY OF CALIFORNIA

Question

what fun things should we do before graduating from Berkeley?!

Question

hypothetically, how many geese do you think you could beat in a fight

Question

can you juggle for us :D

Question

What is the largest amount of chicken nuggets you're willing to eat in one sitting? :0

Question

Are there going to be data c88c stickers? :'D

Question

do you have any show, movie, podacst, music, or book recs? :)

Question

what advice would you have given to your undergrad self today?
